ATTN: Mr. Joe Jackson

REF: Recommendation

Dear Mr. Jackson,

This correspondence is intended to serve as our letter of recommendation of you and your company.

As you are aware, we have contracted with your company on many fueling projects and the hard work, professionalism, and familiarity with fuel handling systems displayed by you and your company was instrumental in the successful conclusion of those projects. Due to this positive work experience, it goes without saying that we will retain your services in the future whenever the need arises, and further, will be delighted to provide references for your future potential clients.

Regards,

Robert R. Boseman
President
